**Cox Business Services and Hospitality Network Combine on
Award Winning Las Vegas Hospitality Case Study**

HENDERSON, Nev. – Cox Business Services and Hospitality Network, the Las Vegas commercial divisions of Cox Communications, announced today that they have been chosen as the first place winner in the annual Cable & Telecommunications Association for Marketing (CTAM) Commercial Services technology case study competition. They presented their case study yesterday to industry experts at the CTAM commercial services seminar in Washington and it will be published in an upcoming issue of CED magazine.

Their entry, entitled “High Speed Data Access to the World’s Largest Hotels,” directly discusses the company’s strategic moves to secure a dominant market-share for hospitality in-room high-speed Internet services in Las Vegas.

“We have an exciting story to tell. We’ve brought the benefits of a scalable in-room high speed data solution to the resorts in Las Vegas,” said David Blau, vice president and general manager of Cox Business Services and Hospitality Network. “What a way to honor Nevada Tourism Week by celebrating how we’ve partnered with the gaming industry to increase hotel occupancy and bring guests the most advanced technologies available.”

Cox Business Services and Hospitality Network currently have more than 60,000 guest rooms in Las Vegas alone served by their wired, and wireless, high-speed Internet solutions. Last year, the companies added wired service at several MGM Mirage and Mandalay Resort Group properties, along with wireless WiFi service at the MGM Grand and Hard Rock hotels.

About CTAM

CTAM, the Cable & Telecommunications Association for Marketing, is dedicated to advancing consumer and business-to-business marketing excellence, the mastery of new technologies, and strategic learning in cable, broadband and other emerging media. As the industry’s primary professional membership organization, CTAM provides marketing education, information and networking opportunities to its members, through conferences, courses, specialized publications, Web sites, consumer research and an active network of local chapters. The CTAM Educational Foundation and its centerpiece initiative, CTAM’s Executive Management Program at the Harvard Business School, are designed to help senior industry executives manage more effectively in a market-driven, consumer-focused environment.
